European Solidarity Corps: How to take part as an organisation?

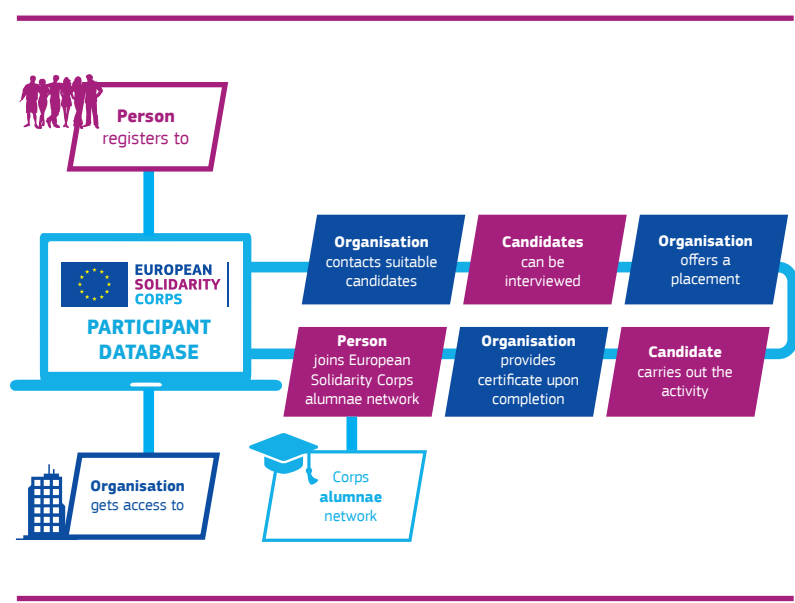

Organisations play a vital role in the European Solidarity Corps. They are those that offer placements to young people registered for the Corps. In this first phase, organisations willing to participate in the European Solidarity Corps can apply for funding through existing EU funding programmes. Eight programmes support the European Solidarity Corps:

- Erasmus+ Programme with its European Voluntary Service
- EU Programme for Employment and Social Innovation (EaSI)
- LIFE programme
- Asylum, Migration and Integration Fund (AMIF)
- Health programme
- Europe for Citizens programme
- European Regional Development Fund (through the Interreg programme)
- Agricultural Fund for Rural Development

What organisations can participate?

A large variety of organisations such as non-governmental organisations, civil society organisations, national, regional and local authorities or social enterprises could become a participating organisation. After having been authorised in line with each contributing EU funding programme, the participating organisation can look for potential employees, trainees, apprentices or volunteers for their solidarity activities in the Corps database. Each participating organisation will have to comply with high quality standards, will need to subscribe to the European Solidarity Corps Mission Statement and its Principles, and will have to adhere to the European Solidarity Corps Charter, setting out the rights and responsibilities during all stages of the solidarity experience.

Programme	Short description	Volunteering or occupational strand	Who is eligible?	How to apply for grants?	Deadline(s) for calls	Geographical scope
