Comunicato Ministeriale di Roma

Notwithstanding the current difficulties related to the COVID-19 pandemic, we reaffirm our target that **at least 20% of those graduating in the EHEA should have experienced a study or training period abroad**, and further commit to enabling all learners to acquire international and intercultural competences through **internationalization of the curricula** or participation in innovative international environments in their home institutions, and to experience some form of mobility, whether in physical, digitally enhanced (virtual) or blended formats.

Digital solutions will facilitate **secure, efficient and transparent exchange of data**. Joint digital approaches to enhance recognition, quality assurance and mobility are needed. We ask the BFUG to map existing and find new solutions to enhance the **interoperability of digital systems** and the exchange of student and institutional data in full respect of **privacy and security**, taking into account the experiences of the **European Student Card Initiative** and other initiatives.
